

Meet Molchem™ Checkstand DC Motor

- Belt speed flexibility based on consumer traffic
- When our new Molchem™ DC Motor is installed and checklanes are running, it uses 78% less power than a traditional AC Motor*
- Meets the consumer's "Green" criteria because it uses less energy than a traditional AC Motor
- Meets the consumer's "Clean" criteria in that it uses NO oil
- Provides retailers with "payback" because it is more energy efficient than a traditional AC Motor

**Validated by Independent Lab Testing*

To reorder Molchem™ products, please contact your checkstand supplier or call 1-800-729-2358 or on-line at www.molchemclean.com

Thank you for your business!
